Summary of Qualifications

As a former business owner, I bring over ten years of experience in a leadership role. I am a results-driven, customer-focused, articulate and analytical Software Developer who can think “out of the box”. Strong in design and planning with experience in HTML, CSS, C#, and .NET with database analysis and design. Skilled in developing business plans, requirements specifications, and user documentation with Strong written and verbal communications. Interested in a challenging technical career in an application development environment.

- Programming skills HTML5, CSS3, JavaScript, jQuery, Bootstrap4, Jekyll, C#, ASP.NET, MVC 4.7, Entity Framework.
- Visual Studio 2017 and Microsoft SQL Server, Sketch for UI/UX design, Adobe Photoshop, Adobe Illustrator.
- Excellent project management, personnel management, and quality assurance skills.
- Exceptional written and oral communication skills.
- Demonstrate the ability to isolate, track, resolve and document technical and client issues.
- Work well independently, in a group setting or a leadership role.

Certifications

- CIW Site Development Associate Certification
- CompTIA CTP Certification
